

Notice To: All Transitional Nutrition Benefit (TNB) Recipients

Please note, your EBT food benefits funded by the State of California must be renewed. The TNB recertification process will restart in November 2023. Your recertification form will be sent to you between October 2023 and September 2024 depending on your renewal month. This means you must complete your TNB recertification packet in order to maintain your EBT food benefits. You may be recertified for an additional 12 months if you qualify.

You can still apply for regular CalFresh at any time if there are changes in your household or income. Please contact your county office if you have any questions.
